IOT SYSTEMS PROTOTYPING & FIELD AUTOMATION WORKSHOP 2026

Daffodil Smart City (DSC)

Exported on: November 07, 2026 12:50 AM | Schedule ID: #13-2779

DAY 1 Monday, June 22, 2026

10:00 AM - 11:30 AM

Workshop Kickoff & Smart Infrastructure Overview

An introductory session highlighting the core objectives of our system sprint. This block will test standard paragraph validation and text loading speeds.

? Innovation Lab – Room 101 ? Speaker: **Dr. Tariq Rahman**

12:00 PM - 02:00 PM

Deep-Dive: Spike Detection & Data Logging APIs

Testing how your database handles code blocks, markdown text parsing, and bracket formats.

? Innovation Lab – Server Wing ? Speaker: **Steve Jenkins-O'Connor**

02:30 PM - 05:00 PM

Interactive Panel, Q&A, and System Stress Evaluation

A collaborative roundtable session to review the data collected during our diagnostic sprints. This segment includes opening the floor to participant questions and testing interactive chat/feedback integrations.

? Innovation Lab – Room 101 ? Speaker: **Dr. Tariq Rahman**
